• A journal may appear in more than one category, and each category may assign a different quartile and ranking for the same journal.

• Q1 indicates the top journal quartile, and Q4 is the bottom quartile.

Note: Only selected journals have been allocated an impact factor. For other journals, try searching in SJR: http://www.scimagojr.com/
**SJR (SCImago)**

**Step 1: Navigate to SJR**
- Navigate to the SCImago website at [http://www.scimagojr.com/](http://www.scimagojr.com/)
- Enter the journal name into the search field on the home page.
- Note: the SCImago website does not require a log in.

**Step 2: Select the journal you wish to obtain metrics for**
Step 3: Hover your mouse over the metrics for more information:

For more information on journal quality and impact, and how these are calculated, please visit the Research impact and publishing Library Guide:
